Ways to **INTEGRATE/USE** ChatGPT

7-Step Writing Process

Ways to Make Assignments More **Resistant** to ChatGPT use

1. ChatGPT to research potential topics and present options	1. CHOOSING A TOPIC: Contemplate, research, and reflect, then decide on the appropriate essay topic.	1. Done in class, use specific sources (could include in class info to use)
2. ChatGPT to help brainstorm ideas around a specific subject/idea	2. BRAINSTORMING: Come up with as many good & bad ideas as you can. Review and select the best one.	2. Done in class, require a mind map / visual representation
3. ChatGPT to create an outline *Students verify the logic	3. OUTLINING: Structure essay into levels within the intro, body (supporting main idea), & conclusion.	3. Done in class, require specific-personal reasons, class discussion component, answer why
4. ChatGPT creates *Students check for coherence & adds personalization	4. DRAFTING: Complete (full sentences, almost perfect) manuscript ready to be reviewed.	4. Highly local/post 2021 content, include class discussion (answer why), annotated bibliography
5. ChatGPT gives feedback *Students verify, thoroughly checking citations/references	5. SOLICITING FEEDBACK: Have someone review your draft and offer suggestions (review rubric)	5. Conduct in-class Peer Evaluations
6. ChatGPT implements feedback *Students verify, checks rubric	6. REVISING: Address/fix all feedback issues and continue to strengthen/clarify the essay	6. Discuss in class, annotated bibliography, answer why changes made
7. ChatGPT used to review *Student submits final version	7. PROOFREADING: Final review, ensure all is perfect	7. Student conducts final review, compares to rubric and submits
